SOURCE: [REDACTED]

1. The Haupt Company is an old established German firm. Its offices and factory are three blocks apart. The latter consists of 12,000 square feet of floor space. A new plant is being erected which will consist of 15,000 square feet including the foundry. Principal production is of large and small centrifugal pumps and multi-stage high pressure centrifugal pumps. Some single cylinder piston pumps are also manufactured.
2. Irrigation equipment including couplers and sprinklers are produced on a small scale but it is an effort just getting started. Equipment, which was in fair condition, consisted of ten engine lathes, radial drill presses, two shapers, and some column drills.
3. In June 1953 this firm had just imported 770 tons of aluminum ingot from Austria and expected another shipment of 660 tons.
